The diagram illustrates a 'Cart' component. It contains a square placeholder for an 'Item' (indicated by a diagonal cross), a 'Price' label, and an 'Add to Cart' button. A double-headed arrow labeled 'User adds favorite to cart' connects the button to a point below it, suggesting a feedback loop or a confirmation step.

The diagram illustrates a user interaction with a shopping cart. At the top, a square box with a diagonal 'X' contains the word 'Item'. To its right is the label 'Price'. Below the 'Item' box is a rectangular button labeled 'Add to Cart'. An arrow points from the bottom right towards the 'Add to Cart' button, with a label 'User adds favorite to cart' positioned along the arrow's path.
